Overview and objectives

This 1-day course gives students the fundamental skills they need to start creating and modifying Web sites with Adobe GoLive CS. Students will learn how to format text, apply styles, create tables, apply images and links, manage Web site files, and publish a Web site.

Who should attend?

Students taking this course should be comfortable using a Windows-based PC, but they should have little or no prior experience with Adobe GoLive

Getting started

- Introduction to the Web and HTML • The GoLive environment • Basic Web page editing • HTML • Help

Web sites and site diagrams

- Site diagrams • The Site wizard • File organization • Creating pages

Text formatting

- Text basics • HTML formatting • Cascading Style Sheets

Tables

- Data and layout tables • Cell formatting • Table formatting • The layout grid

Images

- Image formats and tags • Backgrounds and image size

Creating links

- Links • Image maps • CSS link styles

Publishing

- Site checking • Site uploading
