Overview and objectives

This 1-day course builds on the concepts and skills taught in Adobe Photoshop CS2: Basic.

Students will learn how to create and use masks and vector paths, and how to create fills and overlays to enhance images. Course activities also cover automation of repetitive tasks. In addition, students will learn how to apply creative special effects to both images and text.

Who should attend?

Students should have attended 'Photoshop CS2 Basic' or have equivalent knowledge and or experience.

Course contents

Masking

- Mask channels • Layer masks • Grayscale masks • Clipping layers

Vector paths

- Creating vector paths • Editing vector paths • Vector masks • Type paths

Fills and overlays

- Filling image areas • Creative fill types • Layer overlays

Automating with actions

- Actions • Organizing actions

Creative images

- Layer comps • Distorting type • Painted effects
